The Auditor having in his letter of application for 300 Rupees to be placed at his disposal for the purchase of Stones to cover the drains on the part of the Board.

Resolved, that on each Street being commenced the extent of Government Sites &c being measured and ascertained an Estimate of the number and cost of the Stones required be submitted and the Amount Sanctioned on approval thus making the Charge for each Street and work Seperate.

That the Notification having been read and approved of by the Board it be transmitted to the Superintendent for Publication.

A petition from Selghut Pamiah to take on Contract the pavement of the present Scavenger Establishment and the Collection removal and purchase of the rubbish of the Pettah, for the remainder of the Year for the Sum of Rs The Board are of Opinion that as it is at present difficult to ascertain the actual Amount that will be annually realised from that Source they consider it advisable to give the present Scheme a fair trial before any offers of the Kind are accepted.

The difficulty of procuring Scavengers being very great, the Board are of Opinion

ent to that Class of Servants
and so absolutely necessary to
keeping up of the numbers of the Establishts
every Sufficient for the duty.

The plan which seems best adapted
to accomplish this object, appears to the Board to
be select a site, near or near the Pettah, on which all
of that Class or Caste in the employment of the
Municipal Board be allowed to erect Sheds or houses,
and live in the same free of Moterpha Tax. there
being no place or Spot where these persons have
hitherto been allowed or been able to build, they at
present live and sleep in ruined houses, or
under shelter wherever procurable and the practi-
cability of thus assembling them early in the
morning for duty is utterly impossible.

Resolved, that a site be selected and
when approved of the Superintendent be requested
under the circumstances to exempt such parties
from House tax, on procuring the Sanction of the
Commissioner thereto.

The following Resolutions were Proposed and agreed to

1st That, Mohdeen Saibs Tender for the Supply of Lamps complete at 10 Rupees Each being the most favourable, it is resolved be accepted and the Customary Moorhood Per and Security be taken from him (Signed) R. S. Dobbs

2nd That, the Tender of Ambrose for Lamps with reflectors complete to be attached to wells @ Rs 13 Each should be accepted and the number required be thereafter decided upon (Signed) R. S. Dobbs

That, the ~~was~~ lamp
for the Board be purchased from
4th That, the Stone pillars
Every way better adapted for Lamp Posts also much more
economical than wooden posts, the Cost of the latter being more
double that of the former, Stone be adopted as the Material
for the Construction of all the lamp posts required for the
Pettah.

5th That, the Superintendent be requested to be
good enough to reconsider the order given by him for
the lamps to be attached chiefly to the Cocoanut trees and
Walls of houses in the Pettah, inasmuch as these trees are
much shaken by the wind and the lamps are of two large an
heavy a description to be easily attached to them and
would also be much affected by the Constant vibration
to which they would be exposed. The Walls of the houses
are also generally speaking not of a sufficient thickness
to bear the weight of the lamps and the iron work necessary
for their support. The more massive walls of Schools, Temples
and of such private buildings as may be found suitable, are
however to be availed of as much as possible. The Stone
pillars can also be obtained at such a comparatively small
Cost and moreover prove more ornamental.

6th That, tenders for the Supply of 50 Stone posts
be invited and the President and M. R. R. Kristnier par
be requested to be good enough to receive and approve of the
most favorable Tender.

7th That, Cannoomah Doyee having represented
his utter inability to supply 7 candy loads of Jelly per
Rupee and the Board having Satisfied itself of the validity
of his expenses, the offer of to supply 6 loads per Rupee
be accepted

8th That, Ramah's Offer to supply 13 candy loads
of Gravel per Rupee be approved of and accepted, and the

and Security for the due discharge
be taken from him.

That, the Amil of Bangalore having reported
had selected 7 Sites for Mannai Pits the said
erected by the President and R. R. Kristnienger.

That, no Tenders having been received for (Signed)
use of the Monkeys in the Pettah, the President R. S. Dobbs
authorized to Concert Measures in Conjunctive with
R. R. Kristnienger and the Amil of Bangalore
their Seizure and removal.

That, with reference to the foregoing Reso-
tions, a certain Sum be fixed, for Communication with
e Superintendent, for the payment of Every Monkey
ized and handed over to a Person to be appointed
the Board, and that such person do Confine such
Monkeys as may be delivered in Cages, made of Rough

Proceedings of the
Jor the Incor. of Bangalore

Saturday, 13 Dec. 1862

The following Resolutions were duly discussed and passed by the Board.

I.— That the Drains of the road-way leading from the Gillanenkah Gate to the Fort be re-laid and cons ed. of the same dimensions as in design submitted by the Execu Engineer.

II.— That Sanction be solicited for the construction of these drains in stone in Chunam throughout, if constructed in mud, the water percolates through the joints and leaves the heavier matter in the drain and in as much as the mud between the joints gradually becomes impreg- nated with the foul matter passing over it, to such an extent as to emit

rars sufficient to initiate the
work.

A Proclamation was issued
calling on all inhabitants
to supply the stones necessary for the
drains in front of their respective houses.
This is reported not to have been attended
to by the inhabitants of the street alluded
to in Resolution No. I; and as, in consequence
of there being few if any stones in the
drains, as they now exist, which may
be made use of, it will be impossible
for the owners of the houses in this street
to calculate the number of stones likely
to be required for the portions of the
drains in front of their respective houses;
it is resolved that the number of such
stones, which may be required over
and above those now available in
these drains, be supplied by the Board
and the amount of their cost be
rateably distributed on the rentals of
the houses in the street.

IV. — That the large drain, which
runs the Lidlington Street and

runs out towards
the thoroughly cleared and de-
=cd; and that the N. N. R. Co. Dis-
trict Engineer and the Superintendent of
Bangalore, in communication
with the President, be requested to
see this carried out and to
make such contracts on the subject
as may seem to them reasonable
and advantageous. —

II. — The President has much pleasure
in informing the Board that the
"Cash on delivery" principle is begin-
ing to be appreciated and that the
Monkeys are being daily caught
and delivered at the Depot estab-
lished near the Fort Jail. One hun-
=dred Monkeys were despatched on the

The Board must be aware of the
Cases which I have no Authority to deal
with but which I am bound to refer to the Commissioners
Orders.

One hundred & sixteen or one third of the
Tobacco Collections is objected for, considering
the smallness of the Amount collected in
the Town, the Third of the whole would appear
a liberal Share and of the Cost
(£100 Ns) of Constructing the Short Drains
from the Yellow House Gate to the Middle Block
Market it was sanctioned from the general
Revenues the most liberal basis, but over &
which till now I am still the others pro-

1 On entering Anchy Pettah, the President observed that the Drains there were not properly dug and also that the new enclosures for ordures were in many places out of repair that the refuse filthy slush was flowing into the streets

2 at Tannee in Ranaveerasinga Pettah almost opposite the Police Station, a child was observed attending a call of nature in the Public Street, the Police man at this station had two

and to the Main Streets

he has no suggestion to

to the lanes and bye

must be made by each Jemadar

of his station on his returning

round of inspection, and that the

Jemadar is enjoined to report all such information

to the European Officer who will immediately

adopt measures to remedy the evils, or in cases of a

more serious nature bring the matter before the

President of the Municipal Board for orders.

These measures appear the more necessary since

European Police cannot be on the look out

in all parts of the Pettah at the same time, and

if well carried out there is reason to believe they

will, to a great extent, check the evil complained of

and prevent apathy and sloth in the discharge

of duty on the part of the Non-Officials

4- There are but few Lanterns and

Lamps furnished to date the President gave orders

to expedite the completion of as many as have been

sanctioned (about 50) in number, it is believed) and

strongly recommends that an additional 50 be

granted It appears desirable that a Lamp post

should be erected at the corners of all the cross

streets, this will complete the Lamp Posts for the whole Pettah.

5 A Dead dog having been observed on

the Road in the Gordonmana Pettah, the Duffadar

of this Sub division has been called to account for

the matter having been removed and warned on pain of fine.

6 There are two trees in the Streets

of White Pettah, and one in Hosa Pettah which

entirely impede the progress of Rubbish Carts, these

can the removal of the other Members, shall be and higher Authority

Board; if there is on Hand

7. It is to be hoped
~~Smallness~~ Smallness of Sweepers pay, there
of these Men as to render the carrying out of Officers
Sanitary Measures in all the Streets in a fair
an impossibility, The President therefore suggests
that an increase of at least 8 annas to their pay
be made, when the 26 Men now different could
at once be entertained and as many Divisions
distributed throughout the whole Pettah as are
necessary to a thorough carrying out of these
Measures for Sanitary reform.

8. With the approval of the Authorities
it shall be proclaimed by beat of Tom-Toms as has
been done from the Police Court on Cantonments,
that a Reward will be offered for the destruction of
Dogs during the hot Months. A very distressing
Case recently occurred at Trincomalee of a little Girl
having been bitten by a Mad dog, whilst the
little thing was at play in the Street, and such
accidents, we understand are not of unfrequent
occurrence here, or Other Places

9 The President observed that Water
from the pipes leading into the different tanks
or Wells was rising into in several places - It
would appear that this arrises from the Channel
work of the Tunnels having given way, as also from
the pipes being ~~[illegible]~~ in some parts. However Orders
have been issued for a thorough inspection of these
Tunnels to be made and a report to be furnished
of the Cause of the Leakage, which, the Presidt

Board hereafter with such
assistance
in the New Market lately
erected, it was observed that
the Turret at the Gateway facing
Road in several places. These should at
once be put into a thorough state of repair, and as
dependent on our fund, it would be well to make
a small grant for this purpose without delay.

11. At Sidda Kuttah, a large house
has been built, the front wall of which projects so
far as to encroach on the Public road, and since it
is possible this evil may be of frequent recurrance,
the President strongly recommends that a Proclam-
-ation be made by beat of Tom-Toms, and by publishing
in the Canarese News paper that, no one should be
allowed to encroach on the Public Streets by
buildings on them, under the heaviest penalty
attaching to an infringement of this Order.

12 With the sanction of the Authorities,
the President would gladly see introduced here
similar orders to those which obtain in other parts of
India with regard to Bullocks dedicated by the
Natives to their Castes - At times the Bullocks
are very dangerous Animals, and there is reason to
believe one roams at will in the Pettah here - The
President suggests that it be proclaimed by Public
Crier that all such animals in the Bazar, or Public
Thoroughfares will be seized and immediately sold
by Auction

13. The President strongly recommends
that a small Place Space be walled in for the necessary
purposes of the Native Inhabitants of the New Market for the Convenience

of people attending the Burgh
those attached to Railways Serv^ts
Indeed it seems very desirable
should be greatly multiplied ;
as they greatly enhance the Clean^y
in places where they at present exist
exptent obvious recourse to the Dirty Gut^rs at the
very doors of peoples houses, and fully expose it to
Public gaze

14 At Liddle Ruttah, there is a very
dangerous part of the Road, for a Bridge over a Gullah
which has no parapet to it, with a great drop at
both sides - Here parapets appear indispensably necessary
for on a dark night Carts & Conveyances are very
liable to meet with accident at this place - It is
desirable that no time be lost in remedying this evil

15 The Bridge over the Drain at the
back of the New Market, which Drain has been dug
four feet wide, towards the North, will be carried on
as speedily as possible, to connect the Market with
Liddle Ruttah , has been sanctioned

16 The healthiness of the Pettah would
be greatly enhanced if the whole of the Drains could
be flagged throughout as they are at present much
filled up with Sand and Mud owing to the flow of
Water occurring suddenly and in such violence that
they rapidly fill with silt

17 Mr R L Dobbs one of the Members of
the Board produced a plan prepared at the request
of Captain Cox for constructing a Stone Bridge over the
Gullah at the entrance to the New Pettah of His
Majesty Road - this plan appears to have been prepared
in an improved style at an Estimate of £10 0 0 pes
The Board therefore recommend for the sanction ,
the Superintendant of P.W. outlay, 300 pes ,
addition to the amount of 300 Rupees voted ,

... the Umildar of Bangalore be
... Madars to take care of the
... Streets, and see that dirty
... in the drinking Water of the
... in the heart of the Town.

... the New Market is ready for the
... vegetable sellers, which will be rented
from 1st Inst. The fair rate to be charged for
each Shop will be half a Rupee per mensum.

... appears from a Comparison of
Accounts of the sum estimated that would be realized from
the eight assessments on the owners of houses to keep
the Pettah clean which was not carried into rule, and an Order
was given that a certain sum should be appropriated
from the Tobacco tax for this purpose that there is a
deficit per Annum of Rs. 5,000. as the accounts show
that Rs. 15,000 were estimated from the owners of
houses, whereas the sum now obtained from the
Tobacco tax amounts only to Rs. 10,000.

The following account on acct of the
importation of the Monkeys were passed.

| | | | |
|---|---|---|---|
| 558 Large Monkeys | @ 2 annas each | Rs. | 69. 12. 0 |
| 376 Small do | @ 1 do | Rs. | 23. 8. 0 |
| Sundries, Food, Cart hire &c. | | | 217. 2. 8 |
| | Total Pags. | | 310. 6. 8 |
| Passed on Resolution No 8 of 16th Feb/63. | | | 159. 5. 0 |
| Amount now passed Chs Rs. | | | 151. 1. 8. |

22. As the Drains in Buller and Sultan Pettah
South, are about 7 feet deep and 5'6" wide in both
places are deemed to be kept open on Sanitary grounds
and indeed on the grounds of downright necessity, as
during the Rain the other day the other day there
was such a rush of Water from the freshes after
the heavy falls of Rain that the water in those places
was actually overflowing the sides of the Drains -
The President begs to submit for Consideration
whether

whether it would not be advisable to
Parapet on stone pillars with rope or chain erected along the whole or
all accidents

X The Ex Engineer having reported proposed to make a new road between the Gin, [illegible] Tank and the Mysore Road, the Board would record their opinion, that it would be desirable complete the road now being made by the Commr.

Though this road is not the most direct, it be a very useful line, and it was the one contemplated by Captain Cole when he invited the Public to purchase sites for Shops along its Route.

The Board would therefore recommend that the Chief Engineer be requested to sanction an Estimate for its completion, it is also in the opinion of the Board the best line, and the cost of the Work required, be considerably less than that of forming the new road proposed.

I fully concur in this opinion & would recommend the line being sanctioned. HLD

XI The Ex Engineer having laid before the Board the Plans and Sections of Pettah with a view to obtaining their opinion generally on the subject of its Drainage, it was resolved that of the Main Drainage ducts are executed by the Department of Public Works, the Minor ones should be carried out by the Municipality.

This appears to me proper HLD

The Plan of the several ducts were also approved of, but as some of the Streets where Main Drains are required, are very narrow, the Board is of opinion that provision should be made for covering them with flat Stones, which can be removed when it is necessary to remove the filth

Proposed by the President that a plan.
a map of the extent of the ground under the
jurisdiction of the Municipal Board within the
above limits. The Board are of opinion that the best
plan regarding this proposition will be to request
Major Sankey to kindly allow Mr. Kemp of the
P. W. D. to be so good as to draw up this plan.
Resolved that Major Sankey be addressed on this subject

IV Proposed by the President that the
Chief Engineer be moved to kindly grant two copies
of the Lithographed Map of the Cantonment to
the Municipal Board's Office. Board resolve that
the Chief Engineer be addressed on this subject
and an extract of this para be sent to him.

V The President submits for consideration,
if, whether it would not be as well in future when
fencing in any property to consider the advantage
of having hedges planted, instead of walls built
round such property, as in a recent epidemic of
Cholera a remarkable circumstance peculiarity was observed some
where at, or near Cawnpore, where it appeared
one part of the Town having just been walled in
and another part having its natural defence of
Trees & hedges left around it, that the Cholera
was entirely confined to that portion where it
had been walled in, and a perfect immunity was
experienced from the ravages of Disease where
Nature with her laws had not been interfered
with. The reason suggested from this freedom from
the attack of the disease here being that the Wall
afforded no check to the unwholesome atmosphere

in the one place, whereas at the
leaves of the Trees it would seem a
deliterious stems, or poison in the Air, and prevent
a health giving Ozone thus a am proving that has
left to her own laws would always be found to
act for Man's advantages, but when interfered with
the result will be found to be the reverse.
The President also submits for consideration that
the cutting down of Trees takes away from the coolness
of the place, which he fears will be done at the
Site of the New Pettah, unless the people are requested
not to cut more Trees than is actually necessary
for building purposes on the lots being sold there
now for houses, No one can deny that Trees always
afford a grateful Shade, he also believes that the
leaves of Trees are useful in absorbing, or at least
checking any infection of Disease, or Corrupt effluvia
that may be floating in the Air, and foilage always
adds to the beauty of the place (most of these
remarks are versed from the experience of a Writer
to the "Friend of India" of the 2d inst July current Year)
The Members of the Board are of Opinion that it
would be as well to solicit Medical Opinion
in regard to these propositions
The Medical Officer of the Mysore Commission
will be addressed on the above propositions

I. With reference to Para 8 of Proceedings dated 26th January 1863, it is resolved that an Estimate be prepared to divert to the right, the road running behind the Hospital and Jail for the purpose of Connecting it with the road now under Construction round the Durmamboodi Tank.

2 The abandoned portion of the old road

a by auction. The Town wall will then
retained to the Water Gate from the point
which the new jail wall terminates. An Esti-
mate for this work also to be prepared.

3 These estimates to be included in the
Budget for next year.

II. With reference to Para 3 of the Proce-
dings dated 16th June 1863, it is proposed for sanc-
tion that the bamboos exposed for sale inside
the Arcot Gate, should be removed to outside
the Gate, and that the Merchants should be
encouraged to build either for themselves, or to
let out to others, substantial shops in front of
their houses on the ground where the bamboos
now stand. It is proposed to put up to Auction
the strip of ground from the point where the
houses end, to the Arcot Gate, and to continue
upon it the line of Shops. The bamboo sellers
have agreed to receive as Compensation, a
piece of Land outside the Arcot Gate, on which
to carry on their Trade made in bamboos. This piece
of land may be obtained for 100 Rupees, and
permission is requested to make this payment
from the proceeds of the sale of the strip of
ground above referred to.

III. The Board desire to bring to the notice of the Commissioner that it would much facilitate the Collection of the Money for which the sites in the New Pettah have been sold, and would also tend to encourage higher bids for what remains, if he would be pleased to grant an advance of say 5000. Rupees for the purpose of digging the foundations of the buildings to be erected by the Government, Constructing side drains and gravelling the main roads, between the Dutch Church and the Maligre Road. By exerting a little care, no doubt the Money now due by the various buyers, could be realized; but the Board are fearful that the popularity of the scheme would thereby be endangered, and that the people would hang back from bidding for the remaining lots. This sensitiveness and unwillingness to risk their Money under an impression that Government is not ready to proceed with its portion of the enterprise, was very apparent on the last occasion that a sale was attempted so much so that the auction was postponed.

Submitted for the favorable consideration of the Commissioner [illegible]

2. The people are further very averse to beginning building upon their lots, until they see that the directions of roads, drains and water-

Planning

[illegible] has been finally determined upon, [illegible] dread in order to knock down this and [illegible] move that, because Engineers and Municipal [illegible] bers declare that such and such things are against orders, or are not to be found in the plans.

IV. It would be encouraging if the Engineer Department would Commence at once to connect the Inaugre road with that round the Durmambody Tank, through the proposed pettah.

V. The Board feel confident that if the Commissioner will authorize the advance now solicited, the enthusiasm with regard to this scheme, which undoubtedly before existed, will revive, and the Rupees 7,447 now due, will be paid Cheerfully.

VI. Resolved to request the Executive Engineer to furnish the Board with information shewing the extent of the Main Dreinage to be undertaken by the Public Work Department.

VII. Resolved that instead of the old Tattie which disfigure the frontage of the shops along the Main Streets of the Pettah, the Shop Keepers be encouraged to erect others of a more substantial and Uniform Kind.

VIII. The President reports the selection of proper sites for the new which have been sanctioned, temporary ones near the two Markets, are being constructed.

IX. Proposed that sanction be requested for the Estimate amounting to Rs. 30/- prepared by the Board's Ministry for repairing the Gothic Tower in the new Market, (the arch of which is dangerously cracked) in the manner recommended by Majors Sankey and Mr. R. C. Dobbs. Resolved that the sum be disbursed at once as this work is emergent.

X. Resolved, that as Meniar Fuckeroodeen, whose shop was purchased a year ago for 350 Rupees, has proved to the satisfaction of the Board that he gave Rupees 575 for it, his request to have a piece of ground for a shop in some available locating at the disposal of the Board, be complied with.

XI. Resolved to make experiments with a view to determine with what composition the stone lamp posts should be cleaned as they become much stained with oil and dirt.

XII Resolved to entertain an Assistant Mootseddy as already sanctioned on a pay

South.

Resolved to recommend that
rease of pay as follows, may be made
the undermentioned servants of the Board.

| Total Rs. | 119 | " | " | 20 | " | " | 139 | " | " |

2. This increase can be met in the present year from the saving in Scavengers' Establishment, effected by obtaining bullocks for 20 carts at 9 Rupees each instead of 10 Rupees in consequence of carts being provided by the Board.

3. It is expected that as the operation of the Board extend, the work & its servants will considerably increase; but there can be no doubt that of the above, Sergeant Bow, the Darogah and the Duffadars, have already heavy executive work, for which their present pay appears to the Board to be an insufficient remuneration.

# MEMORANDUM.

BANGALORE, *August* 1875.

THE Town and Cantonment of Bangalore with a population of nearly 150,000 is in want of a Coroner; and not before the need of such a public functionary has made itself quite palpable. The fact that hitherto the Presidency Capitals alone have enjoyed the privilege of having their numerous violent, sudden or accidental deaths enquired into by a specially appointed Coroner suggests some curious reflections. Beyond metropolitan limits, Coroners are unknown; and his office, at one time regarded as of high credit, and exceeding importance, devolves at best upon a Police Inspector, and as often as not is most unworthily undertaken by some inexperienced Head Constable. A striking degeneration truly of the High Office of Coroner within the British Empire, since the days when English Judges "would not receive a verdict acquitting a person of the death of a man found against him by the Coroner's inquest, unless the jury finding such acquittal had also found what other person did the act or by what other means the person came to his death; because it appeared by the Coroner's view on record, that a person was killed."

Coroners were officers of the realm so early as A. D. 995, but only about six centuries ago they were appointed to every County in England. Their duty was to enquire into the causes of violent, unnatural and suspicious deaths, on a view of the body. These facts are merely referred to, to show the importance of the office. Turning to India, as far as it could be ascertained, Inquests appear to have been first held in Madras in the year 1,800, or 75 years ago. In the first 20 years there were only 413 Inquests; from 1853 to 1871, inclusive, 3,403: in 1872, 185; in 1873, 170; and in 1874, 179: the first period averaging 20 per annum, and subsequently 178 per annum.

These facts are brought to notice with the view of affording some data to guide the Municipal Board of Bangalore in the event of their being disposed to recommend the appointment of such an officer within Municipal limits. There can be but one opinion as to the necessity of such an appointment being made, in forwarding the ends of justice. Although under Section 133 of the Criminal Procedure Code, the duties of Coroner are apparently thrust on the Police, it must however be manifest that those duties can only be performed in a perfunctory manner by them: in fact, it cannot be expected that the Police, with other calls upon their time, could do the work as effectually as a Coroner, especially by one of any experience and knowledge of Criminal law and the Law of evidence, whose special duty it would be thoroughly to investigate into all the particulars of the cause of death of the body before him, and lay the facts, with the evidence &c., before the jury; and should the party charged, or suspected, of murder &c., be present at the Inquest, and there be a 'prima

facie' case against him, the Coroner is bound, under law, to commit him for trial to the Criminal Sessions.

Bangalore is little better off than the Agricultural tracts, notwithstanding that fairly intelligent Police Inspectors are always available, to preside under the provisions of Section 133 of the Criminal Procedure Code at inquests. But their powers are as limited as their qualifications for the Office are defective. The Punchayet they lay hands on to assist them is in no sense such a jury as a Coroner is empowered to summon ; while unless manifest suspicion attaches to a death enquired into by a Police Officer he cannot order a *post mortem* examination of the body. Then having had no anatomical education, and not being skilled in physiological signs, cases which would commend themselves to an experienced Coroner, as bearing traces of foul play might easily be passed through such meagre scrutiny as natural or accidental deaths, or as suicides, according to circumstances. Bangalore it is to be hoped has awakened to this fact. How many apparently natural deaths from enteric or gastric disease have in reality been caused by the poison procured with the greatest facility in the Bazaar. These and kindred reflections are creating a wide spreading spirit of uneasiness, which the residents of Bangalore are now giving expression to. Lest it be thought this Memorandum exaggerates the evil the following opinions are inserted.

There appears to be but one opinion as to the necessity of a Coroner in Bangalore. Mr. Hewetson, the Commissioner of Police, in November last, strongly represented the need of this office being created, in his letter to the Inspector General of Police, an extract from which is given below :

" I would take this opportunity of asking you to bring prominently to " notice, the great desirability of appointing a Coroner for the Cantonment and " Town of Bangalore. The want is not only justified on account of the size and " importance of this growing Town, but also owing to the inability of non-pro- " fessional men, such as Police men are, to arrive at any satisfactory conclusion, " regarding the apparent cause of death ; more particularly in the absence of any " external marks on the body.

" Very recently a whole family of chucklers, 13 in all, residing in Kul " holly, were suddenly attacked with vomiting and purging, after their usual meal " of raggy and curry, three of whom died. A post mortem was held and contents of " stomach forwarded to Mysore, to the Chemical Examiner when arsenic was traced. " The great delay which must necessarily take place in such a case, is I need hardly " say most prejudicial to the inquiry. The opinion given by the *Punchayet*, in " which the *Inspector concurred*, in the absence of any evidence to cause a doubt " was that death was due to the state of the raggi used, taken some few days previ " ously from a pit "

The Magistrate Mr. Pereira, is of opinion that such an appointment is essential and would greatly facilitate the ends of justice.

Mr. Baylis, the Chief Inspector of Police, urges the appointment on the following grounds :—

" 1. It would secure the attendance *on* the *spot at once* of a professional " (or a man of long experience) on the report of a death other than natural.

" 2. Having power to hold Inquests, he would be enabled to select in- " telligent men as members to aid him in gaining a verdict.

" 3. Not being engaged in other employments, his time and thoughts " would be fully given to the work.

" 4. It would secure a rapid and reliable decision either to hold a post " mortem or order the burial of (perhaps) a decomposed body.

" 5. It would greatly facilitate the ends of justice. The Magistracy " and the Police would have a certainty to act upon.

Mr. Stuart, Inspector, writes as follows :—

" The appointment of a Coroner for the Cantonment and Town of Banga " lore appears to me a necessity for the following reasons :—

" In the absence of any ascertained or apparent doubt as to the cause of " death, a post mortem examination could not be arranged by the Police, and " it is often in the interests of the relations and friends of the deceased to give such " evidence before the Punchayet as tends to satisfactorily explain and account for " the manner and cause of death. The invariable reason alleged or assigned for the " commission of suicide, particularly in the case of females, is " periodical attacks " of belly-ache," and the Punchayet is obliged to, admit the reason, and how often " with a misgiving."

" A Coroner would necessarily make a post mortem examination in most " cases, and the position and situation of the body and surrounding circum- " stances, when viewed previously, must be of immense advantage in deter- " mining the mode and cause of death, and the chances of injury to the body in " transition from place of occurence to the Civil Surgeon, and the usual delay " would all be removed."

" A post mortem examination in a great many cases, should, I think be " made, as without it the cause of death cannot be accurately ascertained.

" I have known a case in which the Punchayet came to the conclusion " that deceased died from Heart disease, but the anxiety shown by the friends of " deceased to dispose of the body, awakened suspicion in the minds of the Police " officer making the enquiry, which induced him to forward the body for Medical

" Examination, when it was discovered that a most brutal murder had been commit-
" ted, and subsequent inquiry resulted in establishing the case against several persons,
" one of whom confessed, that while deceased was asleep, a bed was thrown on
" him, and two or three of them, jumped upon him, and so broke a few of his ribs,
" which pressing on some of the vital organs, caused death, and no outward marks
" or appearances to indicate foul play were in the least visible ! "

" It is moreover very difficult for the Punchayet to determine that death
" in all cases was not prior to the time, apparent, and in a manner vastly different
" to what appears to be the cause ; for instance, a body might be found hanging to
" the roof of a house or elsewhere, and every thing so arranged by interested per-
" sons, which would readily make believe that deceased committed suicide, but de-
" ceased all the same, may have been poisoned and hanged up after death. In
" some cases of drowning too, it is not easily determined whether death had not oc-
" curred previously—of course when there has been a thorough immersion in the
" water, there are certain outward appearances which indicate drowning."

Mr. Ward, Inspector of Police states, that in his opinion the appointment of a Coroner would be a step in the right direction, as it would facilitate the work of the Police Force, besides removing considerable responsibility from their hands.

Were it necessary other strong grounds might be urged in favour of a Coroner being appointed in a place like Bangalore, the Cantonment and Pettah covering such an extensive area with a population of 142, 513 souls, according to Major Lindsay's Census Report.

All this bears out the assertion that even in a town like Bangalore possessing the exceptional advantage of a considerable European population and European police Officers of superior ability, inquest-holding as at present conducted is a dangerous sham. If figures are impressed into the service, they but confirm this view with alarming significance.

It is almost impossible to ascertain, under the present state of things, with any degree of certainty the number and immediate cause of the many deaths that occur per annum ; but so far as the Police have been able to ascertain, and from gleanings from Public Records, the following three Returns of deaths (marked respectively A. B. and C.) have been compiled. There is a great discrepancy in these Returns, and it is difficult to say which of them ought to be accepted. Enough, however, has been brought to light to necessitate making better provision, independent of the Police, for the thorough investigation of all accidental, violent or suspicious deaths, and suicides. It will be seen that the majority of deaths, as alleged, are from " drowning," which is often very suspicious and used as a cloak for murder. Suspicious cases are not shown in the Returns.

It may be put forward, with some reason, that the statistics referred to abov do not represent the whole of such deaths which occur annually in this populou Town. The custom of Hindoos, in resorting to immediate cremation and burials, an their well-known repugnance to report such deaths to the Police, leave no doub that many deaths from suspicious causes find no place in records, and are in shor allowed to remain undetected.

The pay of the Coroner in Madras is Rs. 350 per month, with deputation allowance of 80 Rs. making in all Rs. 430. There is good reason to believe tha this allowance is about to be increased by Government. The Coroner can, under the present law, appoint a Deputy to act for him ; but only in cases of illness. In Madras, if so acting, he is entitled to a deputation allowance; but should the Coroner be away on leave, the Deputy receives, in addition, a moiety of the salary of the permanent incumbent. In Calcutta the cost of the Coroner, exclusive of establishment is 10,032 Rs. and in Bombay 11,100 Rs. per annum.

NOTE.—It might be observed that, during the last few days, the Officer Commanding H. M. 45th Sherwood Foresters, asked for the services of a Coroner, in the case of the death of a soldier of the Regiment found drowned in a well, under suspicious circumstances.

Levy of a License Tax

S. Read - Letter dated 6th March 1878 from Mr C. D. Leonard Municipal Commissioner No 8 Division proposing the levy of a license Tax on Hawkers who hawk for sale their wares about the Cantonment.

Resolved - That as the question of the imposition of several of the Taxes sanctioned to be levied under the provisions of Section 34 of the Bengal Municipal Regulations of 1871 is shortly to be brought before an extraordinary meeting of the Town and Cantonment Municipal Commissioners it would seem inadvisable at present to enter upon the consideration of the Tax on hawkers as proposed by Mr Leonard.

| No. | Subject. | Remarks. |
|---|---|---|
| 1 | Agreement executed by Peddaraddi for constructing V section drains to lanes Nos. 1, 2, 3 and 4, in Cubbon Pete. | |

*Resolution.*—Approved.

III. Letter from the Reverend A. D'Kerizout, requesting that the natives' cemetery attached to St. Joseph's church near the Barr Lines might be enclosed with a wall at the expense of the Municipality.

*Resolved.*—That the Reverend A. D'Kerizout be requested to state whether the cemetery in queson is open to the public at large or is made use of exclusively for the interment of native catholics.

IV. Proposal by the President to remove the present oil mills from the several localities now occupied by them within the Pete to some convenient site outside the town. These mills are at present situated in some of the most crowded localities of the Pete and are in consequence not only injurious to the health of the residents of the neighbourhood but a source of inconvenience and annoyance to the public generally.

V. Report from the Municipal Commissioner No. 1 Division, submitting a revised compensation statement of the buildings and lands proposed to be taken up by the Municipality below the Darmambudhi Tank bund and adjoining the Muncipal gardens.

*Resolution.*—The Commissioners approve of the revised compensation statement and which they consider reasonable and resolve that the compensation determined on be tendered to the several parties concerned. Should any of these parties object to the proposed terms, that application be then made to the Chief Commissioner to obtain possession under the provisions of Section 98 of the Bangalore Municipal Regulations of 1871.

VI. Docket No. 526, dated 7th instant, from the Surgeon to the Mysore Commission, forwarding for favorable consideration a petition from Hospital Assistant Jirajsami, soliciting a monthly allowance for the period he was in charge of the Pete cholera sheds.

*Resolved.*—That the consideration of this subject be deferred till the next meeting of the Commissioners in view to its being ascertained from the Medical Authorities whether the applicant is entitled to any such allowance as that now asked for.

The President's letter. The Commissioners however expressed their opinion that if the services of a thoroughly competent native Sanitary Inspector could be obtained, such an arrangement would they considered be preferable to the employment of an East Indian. The subject however was not further proceed and no vote was taken on the points.

Read petition from Khazi Kazar Hussain Sheriff and others applying for the unoccupied piece of ground lately taken up by the Municipality for the widening of the Main Drain situated to the East of the Vegetable Market.

The ground applied for by Hussain Sheriff has been Building Sites, and the Commissioners from personal observation in consideration of the purpose for which the ground was now asked for viz for the

on the Main Street be given to the Petitioner free of Cost. It must be distinctly understood, however, that this Concession can only hold good during such time as the Rent of the Shop is appropriated as aforesaid and that the ground will be liable to be resumed by the Board should these Conditions be not strictly carried out. It must be further understood that should any of the Slate Slabs covering that portion of the drain now made over to the Petitioner be hereafter broken, the Repairs to the same must be carried out at the Petitioner's Cost.

Read petition from Ismail Studin, Contractor for the Laundry Stand in the North Kopsain Gate, claiming compensation for the loss incurred in consequence on the Cancelment of his Contract.

Resolution.— The Commissioners to Petitioner's Claim for Compensation

ended. That on the Event of the monthly
payments at any time failing;
the Contract could be cancelled. When the
Commissioner Returned Suspension of the
Sandy Stand more than 1½ months of
Arrears were due by the Petitioner, and
both he declared no Materials to make
good as he was sustaining great loss from
the Petitioner not carrying out of the Contract It is
further Resolved, however, that in Consider-
ation of the distressed State of the Petitioner
and of the Public at large

the Surveyor be sent to the
Commissioners No. II Division for
it being understood that the parties concerned
object to the insufficiency of the Compensation
awarded by the Surveyor -

VIII. Proposal by the President to form
a roadway in rear of the Pete Vegetable
Market and along side of the Main Drain
for the purpose of affording free access
to this portion of the drain and thereby
admitting of its better Conservancy -
Resolution - The Commissioners Consider
the project to be a very desirable one but
as the owners of the houses required to be
taken or are unwilling to accept the
terms proposed, it is Resolved that the
matter be referred to the Municipal Commrs
No. II Division with a request that they
will make another attempt to come to an
amicable Settlement for the purchase of the
houses and land failing in which it will be
necessary that application be made to acquire
possession of the same under the provisions of the
Land Acquisition Act.

Hawker Doorgoo's claim to Compensation
grounds on which the Mill on Mr Channa's
road has been Constructed

Read Letter No 185 dated 9th March 1897
from the Secretary to the Chief Commissioner
of Mysore forwarding for Consideration Hawker
Doorgoo's petition claiming Compensation for
ground on which the Mill on Main Channel
Road stands

Resolution The Commissioners remark that from
the Official records connected with this Case
it would appear that the Superintendent
Nundydroog Division in April 1870 decided
that Hawker Doorgoo's claim to the Mill and
and piece of ground was inadmissible - Again
the statement taken from the Shanbogue by
the Amildar shew that Hawker Doorgoo
never had legal possession of the ground claimed
by him, and that the property for which he
held a Puttah and had been paying Cundayam
was detached and separated by a Wall from the
ground under dispute. Under these Circumstances
the Commissioners Consider that the action taken
by the Municipality in this case was perfectly
justifiable and that Hawker Doorgoo has no
reasonable Cause of Complaint, in deference
however to the suggestion made by the
Chief Commissioner, the Commissioners resolve
that the offer of Rs 150, already made to

Hawker

However Doon goo as Compensation for
any loss he may suppose he has incurred
he renewed, but with the distinct proviso
that in that case he furnish the
Commissioners with a document relinquish
ing all further claim to the Wall and
ground in question

Resolved also, that Copies of documen
referred to in this resolution be furnished
to the Chief Commissioner.

from the New Market

6. Read. Letter dated 6 April 1877 from
T. N. Abraham Degnie, relating to the measures
proposed to be adopted at the Cantonment
New Market for the protection of the goods &c
there from.

Resolution - The Commissioners Consider that it is
unnecessary to adopt any formal recommenda-
tion to Government on this subject, as they are
now informed by the Assistant Superintend-
ent of Police that arrangements have already
been made by him for obtaining a patrol
composed of 2 Constable to be on duty at
the market daily from 1/2 past 6 till
10 Am. with a Chief Constable whose duty
it will be to make occasional visits to
the Markets during these hours

From

The President,

Cantonment Municipal Commission

Bangalore.

To

The Secretary to the

Chief Commissioner of Mysore.

Sir,

I have the honor to forward an extract from the Proceedings of the Cantt. Municl Commission dated 14th. March 1879 har a q to gether with a copy of Mr. Smiths opinion on the subject of taking up ground for the widening of Mean atchers Cart Stand and as the Commissioners have now resolved on account of the high rate of Compensation awarded by the Court to Ratha Ramy Chetty for his premises to abandon the project for which his land was required I have to request you will be so good as to have the Notification published in the Mysore Gazette for acquiring possession of the land in question, Cancelled

I would beg to submit for the consideration of the Chief Commissioner that I consider the opening out of

this

this Street in the manner
by the Commissioners a proper
very greatest importance to the public.
At present it is a narrow Street, and
the passing of any vehicle through it
is extremely dangerous to pedestrians,
but the excessive amount of Compensa-
tion awarded by the Court precludes
the proposed project being Carried into
effect, as it is considered that the present
award might form a precedent for all
future proceedings of this nature, and
which would simply have the effect
of preventing any future acquisition of
ground on the part of the Municipality.

I have the honor to be

To:

The President

Sir,

I have the honor to acknowledge receipt of your Docket d/26th ultimo No. 4027 giving Cover to an Extract from the Board Proceedings under date the 13th idem, and requesting I do furnish with my opinion upon the question whether in Consequence of the Court having fixed the Compensation to be paid to Thatha Ramiah Chetty for his premises which are required for the purpose of widening Brenatche Cor Street, the Commissioners are bound to take up the said premises paying the Compensation awarded by the Court

2. I am of opinion that the

[illegible] are not
taking up the premises as the case
does not fall within section 40 of
the Land Acquisition Act, section
3 of the Act clearly applies, and
the Government (which in this matter
acting on behalf of the Commissioners)
cannot be compelled to complete the
intended acquisition notwithstanding
the reference and award. If however
the Government decline to complete the
acquisition, the Deputy Commissioner
will have to determine the amount
of compensation due for the damage
(if any) actually done to the premises
and not already paid for.

3. Under any circumstances the
Commissioners must pay the Costs awarded
against them.

4. I would suggest that the
Commissioners represent matters to the
Chief Commissioner, pointing out that

the

the Compensation awarded
these premises will probably
taken as a precedent, and if so
Cost of improving the Stents would be
simply prohibitive, and request him
to Cancel the Original Notification
and intimate to Thatha Ramnah
Chetty thro' the Deputy Commissioner
that his premises are not required

I am &c.

Foot path from the Rest House Lane and a public Well in Coles Promenade.

4 With reference to Resolutions, Para 7 and 14, of the Proceedings of the Board, dated 10th July 1867, the Municipal Engineer submits two Estimates as follows.

I. For a foot Path from the Rest House Lane to the Post Office Road for Rupees 200-0-0

II. For a public Well in "Coles Promenade" for Rupees 360-0-0

Res: That the Road be abandoned for the present, as the General Commanding the Division, by letter dated 7th August 1867, objects to the Road being located elsewhere than under the wall of the Rest House compound, which will make the Lane too tortuous.

Compensation for the Houses in front of the new Market

6 Read Memo from the Sur Ameen, Showing the amount of compensation required to purchase the unsightly Houses in the front of the new Market, amounting to Rupees 3060, and stating that Hussain Khan is prepared to give Rupees 700 for the site of the present Sale fish market, and to build a Shop or Shops, on the Board's Plan, in continuation of the alignment of the Catholic School. The President explains, that the purchasing up of these houses, will not be any loss to the Board, as the sites can be put up to auction when Road is made,

when

when the same amount will be due with the 700 Rupees received from Khan; it is proposed to level the ground in front of the new Line of Shops, and to make a new Road 18 feet wide immediately in front of them, by covering in the open drain- and planting and laying out the new square; by doing which the place will be greatly im- -proved -

Res: That the block of - Houses be purchased, as proposed, and the ground laid out as explained by the President; that the lease- -ment for the entire alig- -nment of the new shops be laid by the Board's Engr. and that when this is done, and the old Block, cleared away, the ground be sold by auction in 4 or more convenient lots. The Com- -missioner in the mean time being requested, to find the 3,060 Rs. to disburse to the owners, the loan to be repaid within the present official year

The Proposal when it is carried will be a commendable one and when carried into execution will doubtless improve the appearance of the Locality - but the Board cannot help observing that the funds of the Municipality according to the Budget Estimate will not admit of the Expenditure, and therefore cannot be reimbursed until the ensuing official year

Dismantling 6 Houses in Minar Bazar

7 With reference to Resolution Para 20 of the Proceedings of the Municipal Board, dated 10th July 1867. Our Surveyor submits a revised

for dismantling 6 Houses in Temple Street, amounting to Rupees

The same is sanctioned, and the work to be carried on after receipt of these Proceedings from the Commissioner.

Two resolutions call for no special remarks.

Resolution 4 I am doubtful whether the two powers asked for by the Police Supt can be granted by the Commissioner in a Municipal Bye-laws.

By Grant-in-Road Act I understand that it is a Penal offence for any one to use an asylum for the poor suffering from infectious diseases - Perhaps the inoculation is a poor human something like the Madras Mangan Chandy still
